

JULIAN ANTHONY CADERAO

Senior Digital Marketing Specialist | GoHighLevel Expert | Full-Stack Digital Systems Builder

+63 908 774 0816 | wakykakycaderao@gmail.com | Davao City, Philippines

Web Developer • Software Engineer • CRM Automation Expert • AI Automation Specialist • Marketing Operations

PROFESSIONAL SUMMARY

Results-driven Senior Digital Marketing Specialist and Full-Stack Digital Systems Builder with 5+ years of experience designing and deploying end-to-end digital ecosystems. Proven expertise across GoHighLevel CRM automation, WordPress and custom web development, Meta advertising, API integrations, AI-powered marketing operations, and funnel architecture. Adept at building scalable systems - from CRM workflows and lead generation pipelines to custom dashboards and third-party app integrations - that drive measurable growth for clients across RV park management, auto detailing, real estate, consulting, and agency sectors. Combines deep technical capability with strategic marketing vision to deliver conversion-focused solutions.

WORK EXPERIENCE

● Active Solutions AI

Senior Marketing Manager / GoHighLevel Expert

Jan 2026 - May 2026

- Led GoHighLevel CRM buildouts, automation strategy, monitoring, and maintenance for a portfolio of 23 active clients alongside a small execution team.
- Served as Senior Marketing Manager and GoHighLevel Expert, guiding two junior team members through workflow setup, funnel updates, CRM clean-up, client monitoring, and QA processes.
- Built and maintained CRM systems across multiple industries including plumbing, real estate, construction, holiday lights, auto-detailing, outreach programs, digital marketing, offshore businesses, and service-based companies.
- Developed client-specific pipelines, forms, calendars, email/SMS workflows, landing pages, automations, and follow-up systems to improve lead handling, appointment booking, and campaign performance.
- Oversaw digital marketing operations for client businesses, supporting lead generation strategy, campaign execution, CRM optimization, reporting, and ongoing system improvements.
- Troubleshoot workflow issues, trigger logic, opportunity stages, data routing, and automation errors to keep each client account organized, scalable, and operationally reliable.
- Coordinated junior support tasks, reviewed completed buildouts, and ensured each CRM setup followed clean structure, proper naming conventions, and client-specific business requirements.

● Unique Genius

Senior Digital Marketing Specialist / GoHighLevel Expert & Mentor

Jan 2025 - Jan 2026

- Architected and optimized comprehensive GoHighLevel systems including full-stack CRM development, workflow automations, and email/SMS campaigns that improved lead acquisition, bookings, and revenue conversion paths.
- Designed and launched high-converting WordPress websites with strong UX, mobile responsiveness, and technical SEO improvements to increase engagement and organic visibility.
- Developed and managed API integrations and custom automation pipelines using Pipedream, Zapier, and inbound webhooks to connect GoHighLevel with third-party platforms and streamline marketing operations.
- Launched and optimized Meta advertising campaigns through advanced audience targeting, creative A/B testing, and performance tracking across multi-industry client accounts.
- Managed multiple client accounts simultaneously, delivering tailored digital marketing strategies and GoHighLevel solutions while staying aligned with client KPIs.
- Mentored team members in GoHighLevel development, workflow troubleshooting, and automation best practices to strengthen team-wide technical capability.
- Leveraged AI tools including ChatGPT and Claude to accelerate campaign creation, content production, CRM automation workflows, and operational efficiency.

WORK EXPERIENCE CONTINUED

● RV Park Management

Digital Marketing Specialist

Nov 2021 - Dec 2024

- Built end-to-end GoHighLevel funnels, landing pages, and automation sequences to optimize lead capture, booking confirmations, and customer follow-up workflows.
- Developed and maintained WordPress websites focused on branding consistency, user experience optimization, and conversion flow improvement.
- Designed and executed segmented email and SMS campaigns using automation and A/B testing methodologies to improve open rates, engagement, and conversions.
- Managed CRM pipelines and client communication inboxes to support timely follow-up processes and stronger customer lifecycle management.
- Created branded assets including logos, banners, infographics, and social media creatives using Canva, while maintaining consistent visual identity.
- Planned and scheduled social content across Facebook, Instagram, and Twitter to support consistent brand engagement and audience growth.
- Optimized Google Business Profiles and SEO content to enhance local search visibility, customer interaction, and online booking opportunities.
- Produced SEO blog content using AI tools and Grammarly, supporting organic growth through on-page optimization and community engagement.

Leadership & Delivery Strengths

- Senior-level ownership of CRM architecture, marketing operations, automation monitoring, and client delivery quality.
- Experienced in coordinating junior builders while maintaining standards for naming, workflow logic, pipeline structure, and QA.
- Comfortable handling fast-moving multi-client environments where strategy, implementation, troubleshooting, and reporting must stay aligned.
- Strong hybrid skill set across GoHighLevel, digital marketing, AI tools, custom code, APIs, web development, and campaign optimization.

PORTFOLIO & PROJECT HIGHLIGHTS

Portfolio: caderaajulian13-design.github.io/portfolio/

● GoHighLevel Full-Stack CRM Systems

Designed and deployed complete CRM ecosystems for clients across multiple industries, including workflow automation, pipeline management, lead nurturing sequences, and custom reporting dashboards.

● WordPress & Landing Page Development

Built and maintained professional WordPress websites and high-converting landing pages integrating GoHighLevel forms, tracking pixels, and CRM automations.

● API Integration Projects

Connected GoHighLevel with external tools and platforms using REST APIs, Zapier, Pipedream, JSONBin, and inbound webhooks to enable seamless data flows and cross-platform automation.

● Meta Ads Campaigns

Developed and managed Meta advertising campaigns for RV park, real estate, and service-based clients with measurable improvements in lead quality and conversion rates.

● AI-Powered Automation

Implemented AI-assisted workflows using ChatGPT and Claude AI for content generation, campaign personalization, and intelligent CRM automations.

● Kajabi Funnel Builds

Created sales funnels and course delivery systems on Kajabi for coaching and consulting clients.

● Custom Dashboard Development

Built client-facing reporting dashboards using JavaScript and API integrations to surface real-time marketing performance data.
